Information Literacy and IT Fluency | EDUCAUSE

One piece is information technology fluency, one is information literacy, and another piece is media literacy. And they're all overlapping, like a Venn diagram. For example, with nursing, you may know how to look up information within some kind of database, but that process might be being mediated through a PDA. And I could think of any number of examples like that. So when it comes down to

Teaching For Fluency With Information Technology ...

Fluency with Information Technology: Skills, Concepts, and Capabilities is intended for use in the introduction to Computer Science course. It is also suitable for readers who wish to become fluent with information technology.
